Eschew the turtle magnets and aquatic-theme T-shirts for a real souvenir: a stylish, limited-edition handbag by designer **Stella Page**. This diva of decoupage creates portable and functional art that has toted the lipstick and keys of many a fashionable woman. A team of five artisans helps her create about 1,000 handbags a year in muted tones with Asian motifs. Page, a fourth-generation Bay Area native who works out of her studio in quaint Moss Landing, currently sells her wares in spa resorts in the Bahamas, Dubai, Cabo San Lucas, and Beverly Hills, and at the Clothing Store in Pacific Grove and Pacific Tweed in Carmel.
